

GK100 Industrial garage door opener (packed in 1 box)

BOX CONTAINS:

- Industrial garage door opener "GK100" - 1 pc
- Chain - 8m, Chain thickness: 3,5mm
- External Control unit - 1pcs
- Transmitters - 2 pcs
- Power cable and plug
- Brackets
- Bolts and nuts

GK100 SPECIFICATION:

- Input voltage: 220V
- Rated power: 550W
- Startup torque: 100Nm
- Mechanical limit switch
- Noise: 55dB
- No load rotation speed: 24r/min
- Reductio Ratio: 1:58
- Max door dimensions: 30m²
- No-load continuous running time: 8min
- Temperature -20°C +45°C
- Working Duty: S2-15min
- Output shaft diameter: $\Phi 25,4\text{mm}$
- MAX limit travel: Outpout shaft rotates 20 rounds
- Quick Release: Optional
- Hand release device: Hand-pulled chain
- Waterproof: IP54
